BINTANG LAZUARDI

Central Java, Indonesia · bintanglazuardi70@gmail.com · linkedin.com/in/lazuardi-bintang ·
github.com/lazuardidev · bintang-lazuardi.vercel.app

Software Developer specializing in frontend and mobile application development. Skilled in JavaScript, TypeScript, React, React Native and integrating APIs, with a proven track record of delivering high-quality Android, iOS, and web platform applications.

PROFESSIONAL EXPERIENCE

PT Code Development Indonesia, Jakarta (Remote)   2024 - Now
Frontend Developer
- Developed cross-platform mobile banking applications for Android and iOS using React Native, implementing unit tests, integrating GraphQL APIs, and maintaining comprehensive code documentation.
- Implemented micro frontend architecture to enable seamless integration, enhance modularity, and improve scalability across the application, allowing for independent development and deployment of features.
- Reviewed and approved pull requests and upholding code quality standards.

PT Activa Digital Indonesia, Jakarta (Remote)   2022 – 2023
Frontend Developer
- Contribute to developing and optimizing products in some projects with various technologies, including ElectronJS for desktop applications, NextJS for web applications, and React Native for mobile applications.
- Developed new features and optimized existing ones based on business requirements and enhancing the app's functionality.
- Bug fixing, identifying root causes and delivering timely resolutions to improve application stability.

PT. Bixbox Teknologi Perkasa, Yogyakarta   2021 – 2022
Software Engineer
- Contributed to developing mobile applications in some projects with various technologies, including React Native and Flutter for multiplatform mobile applications and Swift for iOS applications.
- Collaborated with cross-functional teams to ensure seamless frontend-backend integration and contributed to code review processes, ensuring optimal application performance and code quality.

EDUCATION

Gadjah Mada University   2018 - 2021
Associate Degree in Computer and Information Systems

SKILLS & OTHER

- **Technologies:** RESTful APIs, GraphQL, Socket.IO, Postman, Firebase, Figma
- **Languages:** HTML, CSS, Javascript, Typescript
- **Libraries:** React, React Native, Redux, ElectronJS, NextJS, Tailwind CSS
- **Testing:** Jest, Cypress, Vitest
- **Version Control and CI/CD:** Git, GitHub, GitLab, GitHub Actions, Vercel
- **Methodologies and Collaboration tools:** Kanban, Agile, Scrum, Jira, Open Project, MS Teams
- **Personal skills**: Good Communication, Problem Solving, Team Collaboration, Adaptability, Time Management, Critical Thinking, Continuous Learning
